San Diego Speaks Survey, 2009

2009 Budget Issues

- Across California, cities are facing the challenge of balancing residents' expectations for services with limited or reduced resources
- In an effort to garner citizen input on these challenges, the City of San Diego administered the 'San Diego Speaks' survey
- The survey was designed by the office of the Independent Budget Analyst, modeled after a similar survey conducted by the City of Los Angeles

Survey Overview

- Survey was administered in two formats: as a self-administered paper-and-pencil survey and online via the City website
- Self-administered surveys were handed out at six community meetings
- Online survey was advertised on television and at community meetings
- Online and self-administered versions varied slightly
- Survey contained 40 questions asking about prioritization of services and suggestions for service elimination and revenue options
- Final N=687; 275 of these were paper & pencil, 412 were online respondents

San Diego Speaks Survey, 2009

3

Data: Context and Limitations

- Data was collected via a non-random (non-probability) sample of voluntary participants, therefore data do not necessarily represent the opinions of all San Diego residents.
- Respondents to the paper & pencil survey tended to misunderstand the question format, resulting in many blank datapoints, particularly on the "Reduce/Eliminate" and "Pay More For" questions.
- The online survey included the option "Neither" for the "Reduce/Eliminate" series of questions. Due to this difference, we were unable to merge the online and paper & pencil data for these particular questions.
- The open-ended questions allowed for multiple responses to each question. Percents for these questions are based on the number of ideas, NOT the number of people responding to the question.

Takeaway

- Over one-fourth of respondents suggested raising taxes to offset costs.
- Public safety services are considered essential. Respondents are not willing to reduce or eliminate them, and some are even willing to pay more for key safety services such as 911 and fire emergency services.
- Many respondents are willing to pay for residential trash collection, and many suggested charging for this service as a way to increase revenue.
- There is a slight lack of confidence in the City's financial practices. Some respondents seem to resent what they consider to be high salaries and benefits awarded to City employees.
- Neighborhood programs and Park/Beaches/Recreation/Library services were the most frequently suggested services for reduction/elimination.
- Increasing taxes, charging for trash collection, and reducing City salaries/perks, were the top three suggestions for increasing City revenue.

1	middle management reduction

1	new participants in DROP
1	cut wages and persons; not services
1	overpaid mayor's staff, Julie Dubick and Gerry Brauer; reduce compensation for city employees, they earn too much
1	pension plan
1	Pensions and +100K employees
1	pensions at 120% retirement
1	Pensions we cannot fund
1	the pension plan needs to go!!!
1	Reduce top administrators pay and benefits, cut duplicated services.
1	stop the DROP program
1	drop program
1	the pension situation
1	top management-heavy departments and obscene pension and DROP programs! Fix that.
1	use of high paid consultants by the city
1	cut most middle management
1	eliminate all charitable contributions to 501C3's-the government should not be using tax money for these no matter how worthy they seem. Private cities should support those they deem worthy.

1	Perhaps not eliminated but cut back, maybe police and firefighters take reduced hours or rotate reduced schedules. Eliminate those services that are not needed to preserve society's well being. Emergency services
1	reduce employee benefits at the top!! retiring at 80% of last salary is crazy
1	City Council
1	Double employee pensions
1	Council community offices
1	Closed or "secret" announcements of job openings...city should be looking for qualified employees at the lowest salary. The City already has generous benefits. It doesn't need to overpay on wages to qualified pe
1	Significantly reduce the budget of the City Attorney and massively reduce outside counsel costs.
1	Reduce the amount of park services in Districts/areas which have large # of parks and pools.

1	All services should be put to bid in the private sector. Disband the teachers, fire, police and other city service unions. Go to a merit system for all services and pay. City Govm't needs to learn to live within i
1	firefighter overtime, police overtime
1	City employees using city vehicles for private use. Cit council members should only be paid thirty cents a mile for using their private vehicles while doing only city business.
1	Home - the people should not suffer because of too many of our city employees = elected officials.
1	police take home car usage. It is not cost effective. Cost us millions.
1	employee car reimbursement

2	Stop Downtown redevelopment.
2	Mission Valley Unified Planning Group because it only speaks for development at the expense of health and wellbeing of Mission Valley's neighboring communities.
3	All of these programs are essential.
3	I feel all services are important.

3	None
3	There is nothing on these lists that should be cut and it is truly pathetic that we would be given such a list!
3	Any programs that do not help the communities with public safety, residential, health, culturally and education.
3	Anything that provides for the rich or people doing well. Fourth district cannot afford any more cuts.
3	Cannot afford to eliminate any more services
3	eliminating essential services is not the answer - but how can we increase more funding coming into the city?
3	First need to see prioritized list then make value judgments!
3	I can't recommend any!
3	I can't think of one to eliminate
3	I cannot think of what to eliminate
3	I do not know of any at this time.
3	I don't know of any that should be eliminated some can/could be reduced -
3	Most everything seems to be essential.
3	None - I'd prefer not to choose between any of these services.
3	none - we don't have enough as it is
3	None of these services should be eliminated.
3	None- but many could be reduced in open hours or charge small fees.
3	Unsure!
3	I can't say what should be eliminated because I haven't done any research on the value added in the programs,
